A SIGNIFICANT REMARK

Dropped by a Member of the Spanish Commission.

FORTNIGHT'S STAY IN PARIS

Dons Have Not Fixed a Date For Submitting Their Answer.

DON'T LIKE THAT INDEMNITY.

Newspapers of the French Capital Still Insist That the Spaniards Will Refuse the Last American Offer For All the Philippines.

Paris, Nov. 25.—The Spanish commissioners at noon had not fixed upon the day to submit their final answer to the American propositions, but it is deemed most likely that Saturday will be the day appointed.

The opinion gained ground that the Spaniards will accept the proposals of the United States. A significant indication of this view of the situation was a remark dropped by Senor Abarzuza of the Spanish commission that they expected to remain here about a fortnight longer.

The secretary of the Spanish commission, Senor Ojeda, said that the instructions from Madrid were not sufficiently matured to enable them to appoint the next meeting.

The correspondent asked Senor Abarzuza if the commissions would be able to leave Paris next week with the treaty, and he replied with a sidelong glance, as though to observe whether his questioner noted the significance of the reply:

"Why," the Spanish commissioner was asked, "is the opinion expressed so emphatically by a portion of the Paris press that you will decline the \$20,000,000, but will sign the treaty with a protest that you do so only under the pressure of superior power?"

"Well, it does seem that \$20,000,000 is not very satisfactory."

This was the semi-evasive manner in which the Spanish diplomat answered the question.

His questioner continued: "Then it has been affirmed that Spain will refuse to sign the treaty, decline the money offered and make a protest to the powers, and that their commissioners will go home. Is that the most likely result?"

"Ah, but we should not anticipate; we should know day by day what happens day by day."

"And so you anticipate a fortnight more of daily developments here?"

"Ah, yes. A fortnight. Perhaps some affairs may be attended to in that time."

The Petit Bleu reaffirms as a certainty that the Spanish commissioners will refuse the American offer of \$20,000,000 for a treaty cession of the Philippines.

Evacuation of Spanish Troops.

Havana, Nov. 25.—The entire details of the evacuation of the province of Pinar Del Rio have been arranged. The transport Montevideo sails on Nov. 27 with 2,245 troops, the Cobadonga on Nov. 28 with 2,370, the Gran Antilla on Nov. 30 with 1,364, the Maria Cristina on Nov. 30 with 1,503, the Juan Forgas on Dec. 2 with 1,260, the San Ignacio on Dec. 5 with 2,040, making a total of 16,677 troops leaving Pinar Del Rio by way of Havana by Dec. 5.

Across the Atlantic.

Washington, Nov. 25.—The gunboat Helena, which is on her way to join Admiral Dewey's fleet in the Philippines, by way of the Mediterranean and the Suez canal, has arrived at Funchal, Madeira, and will continue her long cruise without unnecessary delay. This is the second attempt made by this staunch little warship to join the Asiatic squadron, the outbreak of the war preventing the first.

To Form a Cuban Regiment.

Santiago, Cuba, Nov. 25.—Captain Ord, the judge advocate, has a plan, which has the indorsement of Cuban Generals Rodriguez, Lacret and Oelazo, of forming a regiment composed entirely of Cubans, with the exception of the colonel, lieutenant colonel and one major. The plan contemplates the subsequent formation of several such regiments.

Won't Touch Havana.

Havana, Nov. 25.—The United States transport Florida arrived here. She will come close to Morro castle, will be signally and will then proceed to Marianao without entering Havana harbor. The steamer will lay outside the bar at Marianao and land her men and stores on lighters, which will take them ashore at the new wharf.

Blanco Soon to Sail.

Havana, Nov. 25.—The Havana

newspapers announce the resignation of Captain General Blanco as published in the Madrid Gazette, and insist upon the truth of the reports in circulation that General Blanco will leave Havana in a few days, probably sailing on the steamer Villaverde.

To Break Up Gambling.

Santiago, Cuba, Nov. 25.—General Leonard Wood, the military governor, has determined to put an end to gambling. He is framing a law for that purpose and will impose a \$500 fine on the first person convicted.

Topeka at Key West.

Washington, Nov. 25.—The cruiser Topeka has arrived at Key West on her way to Havana, where she will take the place of the cruiser Scorpion, which has been ordered home. A telegram has been received from the commandant of the League Island navy yard, Philadelphia, to the effect that the cruiser Panther was ready for sea and would leave there for San Juan, Porto Rico, where she is to remain for an indefinite period as station ship, in connection with the new naval station just established in that territory.

Howl of the Spanish Press.

Madrid, Nov. 25.—The newspapers here comment bitterly upon the peace conditions of the United States and upon the landing of American reinforcements in the Philippine Islands. The Imparcial expresses the belief that "the American exactions are becoming harder and harder" and adds that "there appears to be a European plot in favor of might against right."

Thanksgiving at Santiago.

Santiago de Cuba, Nov. 25.—Santiago celebrated its first Thanksgiving since the American occupation. All the ships in the harbor were decorated with bunting and the officers entertained friends at dinner. The day was practically unobserved by the Cubans, except those employed in the government offices.

Ohio Soldiers Entertained.

Knoxville, Nov. 25.—The First Virginia boys entertained the Sixth Ohio in a body at Thanksgiving dinner, the former regiment leaves Saturday for Columbus. Division headquarters will be broken up early next week. The First brigade is now supplied with tents, and is waiting for the Cuban expedition.

Thanksgiving in Camp.

Huntsville, Ala., Nov. 25.—Thanksgiving day was observed here as a holiday. There were no drills and only necessary duties were performed by the soldiers and camp force. The Fifteenth infantry will leave soon for Savannah under orders to join General Carpenter at Nuevitas, Cuba.

Blanco Eulogized.

Madrid, Nov. 25.—In the decree accepting the resignation of Marshal Blanco as captain general of Cuba, the queen regent eulogizes the "zeal, intelligence and loyalty" with which the governor general has fulfilled his functions.

Small Boy Carried Out to Sea.

Egg Harbor City, N. J., Nov. 25.—Charles Carroll, 6, disappeared from his home here and his parents believed that he had been drowned in the Mullica river. A party of hunters were returning home in a boat and they saw a small skiff drifting near Hog Island. They rowed up to it and were surprised to see young Carroll on his knees hailing the boat with his cap. The lad, as he afterwards explained, had entered the skiff on the river near his home intent upon a row. He was unable to guide the skiff and was carried out to sea, where he was drifted about for over 24 hours.

A Friend of Labor.

Paris, Nov. 25.—With a view of averting a strike of miners at Lens, President Faure, accompanied by his suite, made a personal visit to the town, where he donned miners' clothes and descended into the pit. The president conversed with the men and made a brief speech to them, in the course of which he said he desired to bring to the workers proof of the government's solicitude for them. M. Faure received an ovation from the miners.

Soap Plant Destroyed by Fire.

Chicago, Nov. 25.—The factory of the Allen B. Wrisley company, soap-makers, was completely destroyed by fire. It is generally supposed that spontaneous combustion was the cause of the fire, which broke out upon the second floor of the building, which is six stories in height. Owing to the immense amount of oils, tallow, glycerine and other inflammable articles in the building, the fire burned with great rapidity. Loss will reach \$105,000.

Lexington Horse Sale.

Lexington, Ky., Nov. 25.—A fine lot of brood mares was offered at the Easton sale. Sydney Paget, New York, paid the highest price, thus far, \$7,500 for Roseville, dam of Ben Brush. He was also a bidder for Nocturn and Queenie, but did not get either. Prices were low for the quality offered. Thirty horses sold for \$24,975, an average of \$832.

ROLLED INTO A DITCH.

Day Coach of a Derailed Passenger Train Wrecked.

MANY PERSONS BADLY HURT

While Running at Full Speed a Burlington Express Jumps the Track, Killing and Injuring More Than a Score.

Burlington, Ia., Nov. 25.—The Burlington, Cedar Rapids and Northern passenger train No. 6, running four hours late, was derailed six miles north of here while rounding a curve.

The day coach, containing about 20 passengers, rolled over twice and landed right side up in a ditch 50 feet away. The Pullman left the rails but was not derailed.

The following people were fatally injured: Mrs. Catharine Davis, Columbus Junction, skull fractured; Amanda Harnes, 2 year old, child of August Harnes, Maxfield, Minn., back broken. Severe injured: Miss Estella Bowen, Buckhorn, Ills., hip fractured; Mrs. A. E. Gates, Welcome, Minn., back injured; Maria Fultonhauer, Hamburg, Minn., scalp wound.

Slightly injured: Myrtle Haywood, Iowa Falls, Ia.; Lizzie Mulhay, Kingston, Ia.; S. H. Wilson, Pleasant Grove, Ia.; Glen Gates, boy, Welcome, Minn.; A. Y. Richmond, Pinkneyville, Ills.; John Minister, Galland, Ia.; Mr. and Mrs. August Harnes, Maxfield, Minn.; Mr. and Mrs. J. C. Ollrogge, Maxfield, Minn.; John Ives, brakeman; Andrew Vest, Fellsburg, Kas.; C. I. Klehutz, Assumption, Ills.; Charles Johnson, Montrose, Ia.; W. Robinson, Ford River, Mich.; T. A. Bredick, Minneapolis.

Word came to this city and at once a relief train with surgeons, stretchers, dressings and supplies started for the scene. After the wounded were cared for they were brought to St. Francis hospital.

Four Children Burned to Death.

Louisville, Ky., Nov. 25.—The country home of Milton Garvin, in Clay county, Tenn., was consumed by fire and his four children perished in the flames. The parents were absent at the barn when the building caught fire and returned to find the house wrapped in flames and, owing to the gale, were powerless to aid their little ones. They were roasted before them. The children ranged in age from one to seven years. The parents, hearing their screams for help, made several unsuccessful attempts to save them, and narrowly escaped with their own lives.

An Intolerable Situation.

St. Johns, N. F., Nov. 25.—The colonial minister received from Rt. Hon. Joseph Chamberlain, British secretary of state for the colonies, information intimating that he had been furnished with the preliminary report of the royal commissioners who recently returned from the colony, where they had been investigating the French shore question. Mr. Chamberlain stated that the condition of affairs represented by the commissioners was intolerable, and that he was preparing to open negotiations with France for a settlement of the question.

Anti-Anarchist Conference.

Rome, Nov. 25.—The anti-anarchist conference was opened in the Corsini palace by Vice Admiral Canavaro, minister of foreign affairs. All the European nations were represented. In an address of welcome to the delegates on behalf of King Humbert, Admiral Canavaro said he recognized the difficulties before the conference but the universal recognition of the necessity for common action against the anarchists presaged a happy issue. Admiral Canavaro was elected president.

In Honor of Dreyfus.

Baltimore, Nov. 25.—The Dreyfus propaganda society has adopted the following: "Resolved, that we call upon our sympathizers all over the country to prepare and hold suitable festivities on the day that the hero-artillerist Dreyfus sets his foot on French soil." Senator Morgan of Alabama has been invited to speak at the banquet which the Baltimore society will give on the occasion of Dreyfus' "exoneration and complete vindication by the court of cassation."

Hungarian Statesmen Fight.

Budapest, Nov. 25.—A duel has been fought between the minister of the interior, Desiderias de Perzel, and Deputy Hotto, a member of the Independent party, as an outcome of the minister's speech in parliament on Nov. 22, in which the deputy considered himself insulted. The minister of the interior was seriously wounded in the forehead on the second assault.

HEAVY MARINE LOSSES.

During the Blizzard Two Freight Steamers Are Driven Ashore.

Duluth, Nov. 25.—The heaviest marine loss of the year is reported by the Inman tug Castle, which has returned from the wreck of the freight steamer Tampa at Beaver bay.

The tug Castle found the steel freight steamer Arthur Orr, nine miles further eastward from the Tampa, ashore and broken in two. The great blizzard caused the wreck of both steamers. The crew from the Orr had made their way to Beaver Bay, where they had found the crew of the Tampa. It took them 24 hours, without food, to go the nine miles to that place.

They suffered intensely with the cold. They were greatly surprised to find the men from the Tampa at Beaver Bay, as until then they had known nothing of the wreck of the Tampa.

The Orr left here Monday with 2,200 tons of flour and 500 tons of copper, shipped or account of the Northern Steamship company. The Orr went ashore about the same time the Tampa did. The coast is very rocky, the shore sliding into deep water suddenly, which makes the steamer's position extremely dangerous. The spot where the Orr rests is shown on the charts as Baptism river. The Orr was worth \$175,000, and her cargo \$120,000. The Tampa was worth \$100,000.

The Iron Trade.

New York, Nov. 25.—The Iron Age says the rail trade has had a startling surprise during the last week. It was the general belief that nothing but formally affixing the signatures to the agreement and their ratification by boards of directors was required to make the common selling agency an established fact. At the last moment, it is reported the Pittsburgh interest withdrew, and the elaborate plan fell to the ground. It appears, however, that a series of fresh negotiations were undertaken, and that some sort of a truce was fixed up. Before these were consummated a large business was done in the west at concessions, but there is a good deal of tonnage still in the market.

Victim of Slow Poison.

St. Joseph, Mo., Nov. 25.—The body of W. T. Hugo, a leading business man of Ringo, I. T., who died in a hotel in this city Sept. 28 under suspicious circumstances, has been exhumed and will be held pending investigation. Hugo carried heavy life insurance in the Woodmen of the World, and that organization is conducting the investigation. Detectives have been working on the case for some weeks, and it is said that arrests will follow the autopsy. Hugo came here alone, and when his wife was notified of his death she replied that she was sick and could not come. It is said that he died from slow poison.

Strikers May Yield.

Atlanta, Nov. 25.—The strike among cotton mill operatives here now affects 6,000 workers. The new scale which the owners seek to enforce, and to which the strikers object, is based, so the owners say, on the rate of wages paid in South Carolina and North Carolina. The strikers deny this by claiming that the conditions here and in the Carolinas are different. The mill owners are firm in their determination to enforce the cut, and declare the old scale will not be paid again. The strikers are beginning to yield.

Struck His Brother.

Decatur, Ala., Nov. 25.—Robert and Taylor Russell, brothers, and wealthy farmers of Limestone county, became involved in a difficulty at the supper table over the eldest brother slapping the little child of Robert Russell. From words they came to blows, when Taylor Russell got out his dirk knife and stabbed his brother several times under the shoulder blade, penetrating and slashing the left lung almost in two. Taylor Russell also received knife wounds from which he can not recover.

The President Attends Church.

Washington, Nov. 25.—Thanksgiving day was observed in the usual manner, a snow and rainstorm keeping people off the streets and reducing the attendance at the churches. All the executive departments and business houses were closed. The president, accompanied by his brother, Abner McKinley, attended divine service at the Metropolitan Methodist church and listened to a sermon by the Rev. Dr. Bristol.

Held For Shooting.

Lexington, Ky., Nov. 25.—Major Thomas J. Carson, owner of the Dixiana stud and one of the most popular turfmen in Kentucky, was held in \$200 bond for malicious shooting. On Oct. 22 Major Carson shot W. E. Singleton, a photographer, with whom he had an argument, concerning some photographs of Miss Mary Warfield, his pretty niece.

Two Women Burned.

Huntington, W. Va., Nov. 25.—Mrs. Nancy Staley and Minnie France, her niece, were burned to death here by a fire in the flats on the river front. May Staley was also badly injured.

MONEYS OF THE WORLD

Most Important Events of the Past Fiscal Year.

REPORT OF MINT DIRECTOR.

Gold Coinage of All Countries the Largest Ever Known, Russia Leading in This Respect—Work of Bimetallic Commission.

Washington, Nov. 25.—In his annual report Mr. George E. Roberts, the director of the mint, says:

"The most important events of the fiscal year in the world of government finance have been the consummation of the long-planned resumption of specie payments by Russia in gold, the reorganization of the money system of Japan with gold as the standard, and the refusal of the government of India to co-operate with the governments of the United States and France in an effort to establish bimetallicism by international agreement.

"The gold coinage of the world in 1897 was the largest recorded, amounting in value to \$437,719,342, against \$195,899,517 in 1896. Of the former sum \$146,622,194 was recoinage, and approximately \$251,097,148 a net addition to the stock of gold coins. The principal coinage was by the United States, Great Britain, Russia, Germany, Austria-Hungary, France and Japan. The extraordinary coinage of the year is accounted for by the preparations of Russia, Austria-Hungary and Japan for their monetary reforms. In the case of Russia particularly, gold which has been accumulating for years, much of it in bars, was passed through the mints to prepare it for circulation.

"The completion of Russia's plans of monetary reform and the opening to the uses of commerce of her great gold reserve, systematically gathered year by year until it is the greatest single hoard of treasure the world ever saw, is in itself a most notable event.

"The development of Russia, her position as an exporter of breadstuffs, her policy of developing home manufactures, will all tend to protect her stock of gold and make use for more; but her own gold production is increasing, and unless she is about to enter a period of unprecedented activity and development, seems likely to supply her needs.

"Throughout the world there is manifest a desire among all peoples to bring their own currencies into definite and stable relations with the money of the peoples with whom they trade."

Reviewing the efforts of the Wolcott international bimetallic convention, the director says that the sentiment in favor of a bimetallic monetary standard, supported by international agreement, had found expression not only by the legislative bodies of France and Germany, but of Great Britain, and it had therefore seemed opportune that a conference should be held with a view to ascertaining what concerted action might be agreed upon. Mr. Roberts adds:

"A single nation, acting alone, is certain to lose the dearer metal entirely, and retain only the cheaper as its standard. Thus, for any country, under present conditions, to open its mints to the unrestricted coinage of both gold and silver at 16 to 1, or any thereabout ratio, would be for it to lose what gold it possessed, because that metal would surely go where it was rated higher. If, however, there was no country in the world where it was legally rated higher, there would be no place to which it might go for monetary use. Allowing that the ratio originally agreed to was approximately the market ratio, the valuation thus coinciding with the judgment of the commercial world, there seems every reason to believe that such an international agreement would accomplish its purpose.

"Although the efforts of the commission were brought to an end by the refusal of the government of India to join the movement, the director considers the failure indirectly due to a growing feeling that the rapidly increasing product of gold has radically changed the situation from what it was ten years ago, when the gold product seemed to be at a standstill or declining. It has changed to indifference or opposition the attitude of many who then feared an appreciating standard, but who are quite as much opposed to a depreciating one."

Kingston, Jamaica, Nov. 25.—Since the announcement of the failure of reciprocity negotiations, Jamaicans are awakening to a realization of the gravity of the economic situation and public meetings have been held throughout the island to discuss the position which resulted in the holding of the general popular meeting in Kingston, when an association was organized for the purpose of promoting the colony's political and economic advancement.

For Kentucky—Increasing cloudiness, with rain and warmer in extreme western portions, winds shifting to East.

The Cincinnati Commercial Tribune is frank enough to admit that the recent election "was the most orderly ever held in Kentucky, according to reports." The Courier-Journal remarks that "the election in Louisville was the most orderly ever known." The Louisville Commercial (Republican) admits that "there never was a fairer election held in Kentucky than that of last Tuesday under the Goebel election law," but says: "They are going to do us next time." The people will judge the law by its own execution and not by partisan representations of what may happen in the future.

GOVERNOR BRADLEY has commuted the death sentence of murderer George A. Portwood, of Lexington, to imprisonment for life. Portwood walked into a saloon at Lexington and deliberately shot down his victim. The commutation of the sentence was granted on the ground that the murderer was crazy. When informed that Governor Bradley had commuted his sentence he said:

Since I learned that there was a probability of a commutation of sentence I have been trying to decide which is best, hanging or life imprisonment. However, now that I am to go to the penitentiary I shall try by good conduct to merit a complete pardon.

That talk sounds very much like he is crazy, doesn't it?

WEDNESDAY, a young country boy, staggering drunk, was seen on the streets in charge of two city lads. None of the trio is hardly in his teens yet. They had been up about the L. and N. round house. Where did they get their liquor? Wouldn't it be a good idea for the grand jury to take hold of these smart youngsters and compel them to tell where they get their liquor? At their present gait they will soon be drunken sots. In the past six months it is known that some of this crowd have spent nights in a beastly drunken condition. It's shockingly sad, but true. Here's work that the grand jury should not overlook.

TRUE DEMOCRACY.

The following has the right ring if it does come from a Republican journal, the Ironton Register:

It is said that Secretary Day leaves the Cabinet because the salary of \$8,000 would not keep him. That's strange—a man can't keep himself and family on \$8,000 a year! Then let him go. But it is answered that the social demands require large expense. To Halifax with the social demands. The American republic doesn't expect its officers to mimic millionaires and nabobs; it doesn't want them to do it. The more they do it, the more worthless they are. They should respect the ordinary American life of simplicity and sincerity. Making high social demands a necessity in official life opens office only to the rich man. It says to a man, "Oh, you are too poor to fill this office—we must have a rich man, some fellow who can give grand parties, pour out slathers of champagne and fling ten dollar bills to the lackeys." No poor man need apply. Offices are for the rich noodles. That's the theory upon which a man backs out of an \$8,000 office, because it is not a enough to support him in style. There ought to be a crusade against this kind of business anyhow. It is out of harmony with the public welfare. The average citizen who gets \$2 a day has to pay for it all. A true republic is the reflection of the economy, simplicity and home life of the average citizen. More than that conduces to many ills. Really it would be a God-send to this nation if salaries were reduced. When a Congressman's salary was \$3,000, we had just as great men and more work done. They didn't have so much money to spend on "sassiety," and doing nothing.

The Curfew Law.

[Exchange.]

Certainly there is a good deal of paternalism in the curfew law; but where is the law that is not more or less paternal? There are parents who can not, or do not, control their children. Sometimes the mother will not permit the father to control; sometimes the father will not permit the mother to correct. Frequently the mother is too fond; often the father is too weak—the curfew is for these, and it will do no harm to those who are strong enough to control and regulate without it. It is for the unfortunate and the vicious that curfew is designed.

COURTING TROUBLE.

Gov. Bradley Vigorously Opposes the Acquisition of the Philippine Islands. Home Questions Not Yet Settled.

FRANKFORT, Ky., Nov. 23.—Gov. Bradley has always been opposed to the policy of territorial expansion, but the following interview, given out to-night, is his first public utterance on the subject: "We cannot claim the Philippines on any ground save that of conquest. If this claim is just we certainly should not pay for that to which we are already entitled. If we are not justified in claiming by conquest we have no right to dictate the terms on which Spain shall surrender them. That we have the legal right to demand compensation for damages sustained can not be questioned, but this does not authorize the seizure of territory, certainly not until our claim is repudiated. In the beginning we declared that the war was not to be waged for acquisition of territory, but our present conduct gives this declaration the lie. If other lands are to be attached to this it can be done only by eventually conferring on their people every right possessed by our own. We could not, therefore, deny them access to our shores or refuse to allow their commodities entrance into our ports. In this way sugar, tobacco and other articles would come in competition with ours, resulting, on account of this cheap and degraded labor and superior quality of products, in materially injuring the great tobacco and sugar industries and destroying the hemp industry. Besides, we have demonstrated that we are incapable of self-government. The race question is no nearer settled to-day than it was at the outset. To assume control over distant islands inhabited by a class a thousand times more ignorant and vicious than any we now have is to court abroad greater difficulties than those which we have already proved ourselves unable to settle at home. It would doubtless be well to secure coaling stations in the Philippines, but I am opposed to any further acquisition."

MRS. LYSANDER HOARD, aged ninety, wife of venerable Judge Hoard, died Thursday morning at Frankfort. Mrs. Hoard, until a few weeks ago, when taken fatally ill, preserved a wonderful memory and took remarkable interest in the current events of the day. She was the personal friend of Henry Clay and frequently talked of Mr. Clay. She belonged to Frankfort's earliest families, and was in many respects a remarkable woman.

A HIGHLY intelligent gentleman from one of the New England States, who, many years ago lived in the South and in Kentucky, told a correspondent of the BULLETIN recently that although he had lived in the North for many years he could not get used to the mean, little ways of the people. That there was more genuine, true kindness and good will in one county South of Mason and Dixon's line than in a whole State up there. That Massachusetts had only gotten clear of her slaves after finding them too unprofitable to retain, and then sold them instead of freeing them.

STATE BOARD OF HEALTH.

Judge Settle, of Bowling Green, Decides Against it in the Suit of Dr. G. N. Murphy.

Judge Settle of the Warren County Circuit Court this week decided the case of G. N. Murphy against J. M. Matthews, et al., comprising the State Board of Health of Kentucky.

In effect, Judge Settle is of the opinion that the State Board Health can not deprive Dr. Murphy, who was summoned to appear before that body to show cause why his license should not be revoked, of the right to practice medicine in the State of Kentucky.

The case has proved one of the most important in this Commonwealth, and the opinion is regarded by many lawyers who have read it, or who heard it delivered, as the ablest ever delivered in any Circuit Court in Kentucky.

One reason set up by the board for desiring to revoke Murphy's license was that he advertised that he could cure piles, cancer and other diseases, and the board claimed that he thus was deceiving the public.

Judge Settle holds that Section 2615 of the statutes, under which the board undertakes to refuse certificates for the practice of medicine, or to revoke them for alleged "unprofessional conduct," is void for uncertainty, and that the powers attempted to be exercised thereunder in Murphy's case are without warrant of law, unreasonable, arbitrary and in conflict with the Constitution.

Judge Settle's conclusions did not affect in other respects the validity of the several acts under which the work of the State Board of Health is carried on.

THE Weed, of Louisville, says: "A test case of the law regarding the ten-pound sample drawn from the hoghead of tobacco is to be made in the local court. A. J. Wheeler has brought suit against W. O. Head & Co., for \$100, the penalty denounced the violation of Section 4,799 of the statutes, requiring the warehousemen to account for the net weight of tobacco sold, including the sample. Wheeler alleges without his consent the defendant deducted the sample of ten pounds from the net weight, making a difference of 49 cents. The result of the case is looked forward to with much interest by the trade."

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

A Thanksgiving Wedding at Which Maysville Furnishes the Fair Bride.

The marriage of Mr. James Porter, of Washington C. H., O., and Miss Elizabeth Coughlin, of West Third street, this city, was solemnized at 2 o'clock Thursday afternoon in the parochial parlors by Rev. Father A. T. Ennis. The attendants were Mr. M. F. Coughlin, brother of the bride, and Miss Flora Posey, of Washington C. H., niece of the groom. The ushers were Messrs. D. L. Desmond and Paul Cullen.

The marriage is the happy culmination of a courtship of several years, the groom being an intimate friend of the family and for a long time associated with the bride's brothers in business. Mr. Porter is a successful lumber dealer in his Ohio home and has many warm friends in this county. He is a genial and upright gentleman and commands the respect and esteem of all his acquaintances.

The bride, attired in a handsome black satin de Swiss garment with gray trimmings and hat to match, and carrying a bouquet of Bride roses, looked very beautiful. She was the recipient of many handsome presents from friends who cherish only thoughts of love for her.

The happy couple left on the afternoon train for their home at Washington C. H., carrying with them the best wishes of a host of friends for their future happiness and prosperity, in which the BULLETIN joins.

"THANKS be unto God for his unspeakable gift," from II Cor., 9. 15, was the text of the Thanksgiving sermon preached by Rev. J. C. Molloy at the Christian Church Thursday forenoon. The auditorium was crowded to its full seating capacity, the attendance being the largest for years at the union Thanksgiving service. Dr. Molloy is an eloquent and instructive speaker, and his discourse was an inspiring one. He dwelt at length upon the great blessings this age and especially our Nation is enjoying through the "unspeakable gift" of God's only begotten son, Jesus Christ, and his blessed gospel. The music was a very enjoyable feature of the service.

"To Buy on Tick."

"To buy on tick"—that is, on credit—is something that does not seem to have much connection with the movement of a clock, and yet it is a figurative reference to the same thing. The syllables "tick-tack-tock" are used everywhere to represent sharp, quick sounds of various kinds, with the movements that cause them, whence the tick-tack of a clock or the ticking of any pen, or pencil that "ticks" off our orders. Hence to take a thing "on tick" is to have it marked with a tick or stroke of the pen.—E. F. Andrews in St. Nicholas

When any part of the body isn't doing the work that nature intended it to do, it puts the whole system out of tune—out of harmony. Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they knock the whole row down by upsetting one brick. That is exactly what happens to the health when the bowels fail to perform their proper functions. Constipation makes trouble all along the line—puts the liver out of order, is bad for the kidneys—bad for the stomach. It holds in the body poisonous matter, and because it cannot go any place else, it gets into the blood. The blood carries it all over the system. That makes sluggishness, lassitude, bad breath and foul taste in the mouth, fills the stomach with gas and causes windy belching, stops digestion in the stomach, causes sour stomach, heartburn and headache. You can avoid all such trouble, for Dr. Pierce's Pleasant Pellets cure constipation and its attendant evils. Send 21 cents in one-cent stamps to Dr. R. V. Pierce, Buffalo, N. Y., for his "Medical Advisor." It is a book of 1008 pages, profusely illustrated.

A NEW MOVE.

One of the Circuit Judges in the Mountains Proposes to Mix Law With the Gospel.

[Greenup Gazette.]

F. C. Button, pastor of the Christian Church in Greenup, at the close of his sermon last Sunday night, announced that he would not make his next regular appointment—that he was going to do some circuit riding in the mountains of Kentucky. The Circuit Judge in the Judicial district bordering on Tennessee and Virginia had requested him to accompany him on his judicial circuit and mix and mingle the Gospel with the law. The Circuit Judge proposes each day to suspend court for one hour for preaching and have preaching every night, and Bro. Button has been engaged to do the preaching. It is the purpose of this Circuit Judge to fuse the law and the Gospel for the purpose of pacifying the lawless element in the mountains of this State. The scheme is a commendable one, and let us pray it may be effective of noble results.

The Manufacture of Nickel.

Makers have succeeded in electro-depositing nickel plates 20 by 30 inches in size and $\frac{1}{8}$ to $\frac{1}{4}$ of an inch thick, which are so tough and elastic that it is very difficult to chisel the metal; and the shearing of plates more than 1-25 of an inch in thickness is as troublesome as manipulation of so much tempered steel. It is an important fact, also, that these plates, ordinarily, will neither break under the hammer or crack under the punch. The greater portion of the output of pure nickel is used in making nickel steel and German silver, and the rest cast into anodes for nickel-plating.

The value of the platinum and palladium contained in the Canadian ore annually mined is more than \$30,000. A part of this the electrolytic process saves, and it will soon be placed on the market. The value of the world's product of metallic nickel and nickel oxide in 1897 exceeded, it is said, \$1,300,000.—T. Ulke, in the Engineering Magazine for December.

The Kind of Bird.

The party with the long hair and starving family, not to mention lesser symptoms of the literary bent, was less servile than nasal.

"How about my poem?" he brusquely demanded.

"She's a bird," replied the conductor of the magazine.

"What kind of a bird?" persisted the man of letters, thoroughly aroused.

And the other, saying nothing, merely indicated with a gesture the pigeon-hole above his desk.—Detroit Journal.

SHAW CONVICTED.

A Noted Swindler Will Be Detained by Uncle Sam.

St. Louis, Nov. 25.—William Shaw, charged with coin-sweating, has been convicted by the United States district court. He will be heavily fined and sentenced to five years imprisonment. Judge Adams will not pass sentence upon the prisoner until Monday.

The case was one of the most famous ever tried in the United States court in the city, and has attracted attention in government circles throughout the entire country on account of the many possibilities of swindling that the full operation of the scheme worked by Shaw involved. James Wilcox, an accomplice, who said he came from Indianapolis, turned state's evidence, and it was on his testimony that Shaw was convicted.

A Sad Suicide.

Waltham, Mass., Nov. 25.—When Annie Aune, a Norwegian girl, received her first pay envelope at the American watch factory she found only a small sum in it, as it is the custom of the company to withhold a week's pay of employees. Later the girl's body was found in the Charles river. Her hat was on the shore and pinned to it was the pay envelope, upon which was written in Norwegian, "Annie discouraged."

Washington, Nov. 25.—Mrs. McKinley and a distinguished party witnessed the performance of the Neilsen Opera company at the Lafayette opera house. The great audience rose to its feet with cheers.

Washington, Nov. 25.—Disagreeable weather, with a wet snow falling, interfered considerably with the plans of Colonel Carter, the president's representative for the entertainment of President Iglesias of Costa Rica, who spent most of the day in doors. To Relieve West Indian Distress.
